30 JUN 2020

# Print4All event rescheduled to 2022 due to diary clashes

The organisers of [Print4All](#) have confirmed that the next event will be held in 2022, from 3rd to 6th May.

The extraordinary situation of these past few months has impacted not only the industry world but also the international calendar of trade fairs 2020-2021. These drastic change have forced the show to be exceptionally rescheduled, in order to meet the needs of the sector and avoid overlaps with other events that would have put companies and operators in difficulty.
